Homeland Security Update

In the Notice of Funding Opportunity, Kansas was to receive \$600,000 for the Non-Profit Security Grant. In the final allocation Kansas approximately double allocated amount. This grant will be continuing. Because of COVID Chuck Clanahan with the Cybersecurity and Infrastructure Program with DHS is not able to complete risk assessments. The non-profits are not tasked with doing their own risk assessments and it is beneficial to have law enforcement assisting them with the process.

THIRA/SPR review– Lt. Cordner / Connie Satzler

Discussed the law enforcement core capabilities.

Tactical Med Kit program through KLETC

Since the Tactical Medical training started in 2017 there have been 901 students that have gone through the training and received a kit. They will run out of kits in October/November of 2021.

New Business

Because of the change in assignment Ingram is no longer the commander of Homeland Security and Emergency Operations and he will be stepping down as chair of the KLERWG.

Ackerman motions to nominate Bramlett to serve as chair. Van Der Wege and Murphy second the nomination. All agreed to appoint Bramlett as chair of the KLERWG.
